Lab 12

Objective: **Practice jQuery HTML Methods and Traversing**

Please use 3 jQuery HTML methods of your choice **and** use at least one example each for ancestor traversing, descendant traversing and siblings traversing. The reference is as follows:

https://www.w3schools.com/jquery/jquery_traversing.asp

You need to customize the work and create a hyperlink from your home page (index.html) to this lab.

Warning: sites with high similarities will be treated as plagiarism and zero will be given to all students involved.
