Lab 5

Objective: Practice CSS <u>Box Model,</u> <u>Position</u> and <u>Overflow</u> properties

In this lab, you need to create a new page and the page should use the following CSS properties.

Box Model: Practice using Box Model: <u>border</u>, <u>margin</u>, and <u>padding</u>.

Please apply border, margin and padding in the page.
<u>https://www.w3schools.com/css/css_boxmodel.asp</u>

Position: Practice using the following Position properties: <u>relative</u>, <u>fixed</u>, <u>absolute</u> and <u>sticky.</u> Make sure the difference of the properties are fully demonstrated.

<u>https://www.w3schools.com/css/css_positioning.asp</u>

Overflow: Practice using the following Overflow properties: <u>hidden</u>, <u>auto</u>, <u>scroll</u> in this page. Make sure the properties are fully demonstrated, for example the difference between auto and scroll should be demonstrated clearly.

<u>https://www.w3schools.com/css/css_overflow.asp</u>

Please create a hyperlink from your home page (index.html) to this lab.

<u>Warning</u>: Sites with high similarities will be treated as plagiarism and zero will be given to all students involved.
